

Lazee Daizee Challenge Kit

A
1/2" LD project

B
1/4" LD project

C
1/2" and 1/4" LD
combined project

How it works

Anyone can purchase the Lazee Daizee Challenge kit regardless if they intend to enter the contest or not. The cost will be around \$30.

The kit includes instructions and all of the findings and wire shown for projects in photos A and B but only one focal button is included.

If you only have a 1/2" LD tool you can make the project in photo A. If you have the 1/4" tool you can make the project in photo B. If you have both tools, you can make the combined project C.

Challenge entries

If the purchaser chooses to use the kit for the LD Challenge, certain findings and the focal button must be used in their entry.

A limited number of Challenge kits will be available for purchase June 1, 2013.
